

— FOR IMMEDIATE RELEASE —

## **CXT Software ships X Dispatch Enterprise Suite 6.0**

*The most powerful productivity tool for same-day delivery just got even better.*

**Phoenix, AZ – January 2, 2006** – CXT Software, a leading provider of software for the same-day, time-critical delivery industry, today announced the immediate availability of X Dispatch Enterprise Suite 6.0. This release includes more than 50 enhancements to X Dispatch, X Route, X Internet, X Tracking and X Migration. The new versions of these proven software solutions contain a host of productivity enhancements designed to increase customer service levels and profitability.

“Since CXT Software was founded in 1999, we have been committed to providing our delivery industry partners with the latest technology and the most powerful automation software by releasing major versions annually,” said Dan Calderone, President, CXT Software. “With these enhancements to an already powerful solution, both on-demand and scheduled route couriers will have all the tools they need to exceed their own customers’ expectations.”

New feature highlights include:

- Improved Web Services – Delivery Companies can have better automated interaction with outside customers.
- New Rating Methods – Allows even greater flexibility in rating and driver settlements.
- Drag & Drop Route Planning – Allows route planning staff to manipulate scheduled routes with efficiency and ease.
- Improved Barcode Tracking Capabilities – New options for customers who want to scan.
- Improved reporting options – Customers can download advanced queries directly from the CXT Software library.

“ProCourier has always utilized technology to increase our customer service, efficiency and profitability. X Dispatch takes us to the next level in accomplishing our goals for excellent service,” said Bob Faulkner, president, ProCourier, Los Angeles, CA. “X Route parcel tracking capabilities have allowed us to position our service well ahead of our competition, while giving our customers what they want from a delivery service provider.”
