CXT Software Appoints Vice President of Operations

Phoenix, AZ – April 1, 2007 – CXT Software, a leading provider of same day and expedited delivery software, is pleased to announce the promotion of Derek Figg to Vice President of Operations.

Mr. Figg began his career at CXT Software in 2004. Immersed in development, he quickly became the stand out expert in CXT Software's applications providing guidance to his peers in all areas of operations including coding, system and database design, data conversion, business analysis, training and sales. In 2005 Figg was elevated to Director of Development where his responsibilities included management of software design and coding for CXT Software's delivery management applications, as well as, in-house systems and applications. "Derek's contribution to the success of CXT Software cannot be understated. His leadership, talent and dedication make him the ideal choice for our rapidly growing company", stated Dan Calderone, President, CXT Software. "We are excited by this change in our management team and look forward to years of continued prosperity under Derek's leadership."

In his new role, Mr. Figg will be responsible for all development, product implementation and technical support with a staff dedicated to each. He will also be responsible for the design of existing and new applications and technologies. When asked to describe his long term goals he said: "CXT Software has more than doubled in size since I came aboard. I plan to provide the operational strength to allow the company to double again in size, through focused recruiting, hiring, and training of the most talented staff available."
