

-FOR IMMEDIATE RELEASE-

CXT Software Announces Financial Results for Fiscal 2009

Phoenix, AZ, March 22, 2010. CXT Software, a leader in providing automation technology to expedited delivery and last-mile distribution businesses, today announced a 12 percent year-over-year increase in revenue for its fiscal year ended December 31, 2009. 2009 was a milestone year for CXT Software, with the company celebrating its tenth year in business and achieving its ninth consecutive year of double-digit revenue growth.

2009 sales growth at CXT Software was driven by the successful launch of *X Dispatch Hosted*, a cloud-based version of CXT Software's flagship product suite. With *X Dispatch Hosted*, customers launch the application on servers managed by CXT Software. "*X Dispatch Hosted* was certainly the right product at the right time," explains Darin Soll, CXT Software's CEO. "By mid-December, we had 20 customers live on this popular new offering."

Another factor in CXT Software's 2009 growth was continuing success in automating its customers' route and distribution operations. "With our route and distribution solutions, CXT Software's customers can perform as seamless links in their customers' supply chains," Soll notes. "CXT Software customers currently integrate with over 20 different distribution and logistics partners across the U.S. The value proposition CXT Software brings to the table is helping our customers weather the current economic turmoil."
